

# CV Summary

I am a motivated and detail-oriented construction management student at the University of Cape Town, currently pursuing a BSc in Construction Economics and Management. Through academic training and multiple in-service placements, I have gained hands-on experience in civils, building works, project management and health and safety. My practical training includes exposure to tender processes, site coordination, and problem solving, while also learning strong communication and organizational skills. I thrive under pressure, adapt quickly to site challenges, and bring a results-driven mindset to every task. With a balance of technical knowledge, practical site experience, and professional ethics, I am committed to growing into a competent construction professional.

## **WBHO Construction (2024)**

- Oversaw and aided site documentation, health and safety checks and inspection
- Assisted in contractor coordination
- Gained valuable onsite and offsite knowledge about road construction

## **Makwande Africa Consulting (2023)**

- Assisted with tender and procurement documentation
- Observed site meetings, shadowing senior engineers and project managers
- Developed insight into QS and civil engineering technology

## **Groeneveld Civils & Construction (2025)**

- Hands-on experience with stormwater, drainage, earthworks and pavings
- Strengthened practical problem-solving and adaptability

## **Other Roles**

- Bartender : Built customer service, cash handling, and teamwork skills.
- Pick n' Pay: frontline service, sales transactions, and stock management.
- ABES (UCT): Sub-committee and association member.

## **Highlights**

- Strong foundation in construction economics and management (UCT).
- Practical experience across civils, buildings, H&S, and project management.
- Skilled in documentation, tendering, and on-site technical support.
- Computer literacy: Microsoft Office 365, Teams, Zoom, Unibase.

- Code 8 Driver's License; Digital Marketing knowledge.
